AUTHOR INDEX

Akers, L. C. (1):59A
Annesley, Thomas (4):205–211
Asarch, Kenneth B. (4):213–218
Barksdale, C. M. (1):54A
(2):122–128
Bied, A. (3)179–184
Bowlin, Elizabeth (1):55A
Bowman, Carl (1):57A
Breglio, Susan (1):58A
Brietzke, Stephen A. (4):224–228
Brownfield, Mark S. (2):122–128
Bryant, Jeffrey (3):158–160
Bushnell, D. (1):56A
Chang, T. (1):54A
Chuba, Paul J. (1):53A
Carey, John L. (1):21–29
Crowley, G. T. (1):59A
Coggeshall, Karl S. (1):53A
Cook, Linda (1):36–39
Coon, M. J. (1):54A
Copeland, David (1):57A
Coty, William (1):57A
Courey, Mike (1):54A
Davis, Stephen J. (2):106–110
DeBari, V. A. (1):53A
(2):111–114
Delfert, Dennis (1):54A
Dhekne, Ramesh D. (1):55A
Doyle, Matthew J. (1):53A
Dworschack, Robert T. (1):55A
Earp, Brian (1):57A
Elliott, S. (1):56A
Fischer, A. (1):53A
Folk, P. (1):59A
Fong, Jeffrey (1):57A
Gansler, Ted (1):30–35
Garces, B. (1):55A
Garrett, Patricia E. (1):18–20
(2):73–74
(3):125–136
(4):187–188
Gentile, V. G. (1):53A
(2):111–114
George, Sosamma (1):54A
Gerczak, M. M. (1):59A
Grams, Janet (1):54A
Greenquist, A. C. (1):53A
Gobel, Ulf (1):53A
Hakim, Anwar A. (1):54A
Halsall, H. Brian (1):56A
Hamburger, Joel I. (2):90–99
Harriman, D. (1):56A
Harrison, Amy (1):54A
Heal, Albert V. (1):54A
Healy, Sylvia A. (1):55A
Heineman, William R. (1):56A
Hullin, David A. (2):106–110
Irving, Douglas (1):36–39
Jacobson, James M. (4):224–228
Jenkins, Sarah H. (1):56A
Kalin, Ned H. (2):122–128
Kanabrocki, E. (1):56A
Kaplan, E. (1):56A
Kaplan, Michael M. (2):90–99
Keil, Lynn B. (2):111–114
Khanna, Pyare L. (1):56A
(1):57A
King, William (1):54A
LaSalle, M. D. (1):53A
(2):111–114
Latimore, Darin (1):56A
Lazarz, Sue (1):57A
Lee, Choong-Eun (3):161–165
Lee, James P. (3):161–165
Leung, Siu Sang (3):154–157
Lieto, Ralph (1):40–50
Lingenfelter, David S. (1):56A
Loos, Valerie (1):54A
Manning, Wayne (1):57A
Marquez, Ernest (3):158–160
Matheke, Mary Lou (2):115–121
McClure, R. Dale (1):58A
McCrary, Janine (1):54A
McGrane, Michael T. G. (2):106–110
Mee, A. V. (1):55A
Mermall, H. (1):56A
Miller, Karl S. (1):53A
Monroe, Linda A. (1):55A
Moore, Warren H. (1):55A
Muckerheide, Mary (1):57A
Mugan, Karen (1):57A
Murthy, H. M. S. (1):58A
Nagle, Conrad E. (1):40–50
Naik, N. (1):55A
Naudin, C. (3):179–184
Nordblom, G. D. (1):54A
Oei, L. (1):55A
Oei, Tjien (1):55A
Ortiz, Gloria (4):224–228
Orsulak, P. J. (1):59A
Ostrovsky, M. (1):53A
Pachla, L. A. (1):54A
Pandian, Murugan R. (1):57A
Patel, Jayant (4):205–211
Patel, Niranjan (1):57A
Pappas, Michael (3):158–160
Phillips, Vincent (1):58A
Pertussi, R. (1):53A
(2):111–114
Pugh, Roger (2):106–110
Ragsdale, T. L. (1):59A
Revenant, M. C. (3):179–184
Rohde, Deborah (1):57A
Rojewski, Michael (1):54A
Rosman, Daniel B. (1):56A
Rovito, Roberto J. (1):56A
Ruiz, J. C. (3):179–184
Sample, Martha M. (1):55A
Scott, John R. (3):154–157
Shaw, Vipin D. (1):55A
Shindelman, Jeffery E. (1):56A
Showalter, H. D. H. (1):54A
Simons, Richard J. (2):100–105
Sinclair, Mary (1):40–50
Singer, Robert E. (1):53A
Sothern, R. (1):56A
Spencer, Carole A. (2):82–89
Spiekerman, Michael (1):58A
Spiehler, Vina (4):219–223
Staples, Mark (1):58A
Sumaya, Ciro V. (3):168–174
Sun, C. (1):55A
Sunstrum, James (3):175–178
Takahashi, Lorey K. (2):122–128
Thurman, R. D. (1):59A
Tom, Ray (1):58A
Travis, Jeffrey C. (1):59A
Tyson, Ian (1):54A
Uchimaru, D. (1):55A
Valdes, Roland, Jr. (2):115–121
Vernet, M. (3):179–184
Wang, Shari (1):54A

SUBJECT INDEX

Annals of Ligand Assay
Bringing immunodiagnostics to the world: The history of Diagnostic Products Corporation. (1):7–10
Transferring RIA: The role of Nichols Institute in managing technology transfer. (2):69–72
There is no satisfactory substitute for excellence: A history of Beckman Instruments. (3):137–142
From "Alkaloid" Maker to Health Care Leader: The First Century of Abbott Laboratories, Inc. (4):189–193.

ACTH
Evaluation of a sensitive immunoradiometric assay (IRMA) for ACTH. (1):57A

Automated immunoassays
A new microparticle capture enzyme immunoassay for the quantitation of CEA on the automated IMx™ Instrument. (1):54A
An evaluation of the IMx™, an automated immunoassay, to a manual EIA method. (1):55A

Breast cancer
Analytical and clinical evaluation of an ELISA for measuring epitope levels of GalNAc, Neu(1-3)GalNAc and Gal(1-4)GluNAc glycopeptides in sera of patients with breast disease. (1):54A

Cancer chemotherapy agents
Radioimmunoassay for the cancer chemotherapy agent CI-937 in several biological matrices. (1):54A

Carcinoembryonic antigen (CEA)
A new microparticle capture enzyme immunoassay for the quantitation of CEA on the automated IMx™ Instrument. (1):54A

Circadian variation
Circadian variation of serum hormone levels in eleven clinically healthy men. (1):56A

Creatine kinase
A rapid and sensitive radioimmunoassay for the detection of serum CK-MB isoforms. (1):55A

Corticotrophin releasing hormone
Diurnal rhythm in rat cerebrospinal fluid corticotrophin releasing hormone similar to the rhythm of pituitary-adrenal activity. (1):122–128

Cortisol
CEDIA™ cortisol, a rapid highly specific homogeneous enzyme immunoassay for serum cortisol. (1):57A

Cyclosporine
Monitoring cyclosporine concentrations using dry blood-spot samples. (1):55A
Comparative evaluation of ^{125}I and ^{3}H-labeled RIAs for specific measurement of cyclosporine (CsA) in cardiac and renal transplantation. (1):55A

Cystic fibrosis
A new rapid and simple solid phase RIA for neonatal IRT determination in cystic fibrosis screening. (1):59A

Digoxin-like immunoreactive factors
Antibody specificity reduces interference by endogenous digoxin-like immunoreactive factors. (2):115–121

Drug testing
Comparison of immunoassay and gas chromatography/mass spectrometry results in toxicology. (4):219–223
Extending the clinical laboratory into forensic urine drug testing. (4):205–211
The regulation of toxicology in vitro diagnostic tests and instrumentation. (4):213–218

DNA probes
A rDNA probe for arthropod-borne borrelia sp. (1):53A

DNA typing
DNA typing in the forensic sciences (4):229–233

Electrochemical immunoassay
Subattomole electrochemical immunoassay using ion-pair reagents. (1):56A

Enzyme immunoassays
An ELISA for antibodies to vimentin in patients with systemic lupus erythematosus. (1):53A
Determination of immunoglobulin A in saliva using an ELISA robotics system: sIgA recovery after immunosuppression. (1):53A
A new microparticle capture enzyme immunoassay for the quantitation of CEA on the automated IMx™ Instrument. (1):54A
Analytical and clinical evaluation of an ELISA for measuring epitope levels of GalNAc, Neu(1-3)GalNAc and Gal(1-4)GluNAc glycopeptides in sera of patients with breast disease. (1):54A
An evaluation of the IMx™, an automated immunoassay, to a manual EIA method. (1):55A
CEDIA™ cortisol, a rapid highly specific homogeneous enzyme immunoassay for serum cortisol. (1):57A
An ELISA for antibodies to vimentin in patients with systemic lupus erythematosus. (2):111–114
A fluorescence ELISA for Lyme disease: A comparison with other diagnostic techniques. (3):154–157
Enzyme immunoassay for the detection of Lyme Borreliosis. (3):158–160

Epstein-Barr virus
Epstein-Barr virus and infectious mononucleosis: A review. (3):168–174

Estrogen receptor
Factors to address when a laboratory is establishing new ligand assay receptor assays. (1):59A
Association of protein kinase activity in human breast cancer. (1):59A

Ferritin
Rapid determination of ferritin in serum by radial partition immunoassay. (3):179–184

Flow cytometry
Flow cytometric immunoanalysis of leukemia and lymphoma. (1):21–29
Applications of flow cytometric DNA quantitation in tumor pathology. (1):30–35
Microsphere-based flow cytometric assays. (1):36–39

Folic acid
CEDIA™ folic acid, a homogeneous enzyme-based ligand binding assay (1):56A

Follicle stimulating hormone (FSH)
The enigma of standardization for LH and FSH assays. (1):18–20
Comparison of three commercial LH and FSH diagnostic kits with regard to important diagnostic classification. (1):58A

Gas chromatography/mass spectrometry
Comparison of immunoassay and gas chromatography/mass spectrometry results in toxicology. (4):219–223

Glycopeptides
Analytical and clinical evaluation of an ELISA for measuring epitope levels of GalNAc, Neu(1-3)GalNAc and Gal(1-4)GluNAc glycopeptides in sera of patients with breast disease. (1):54A

Herpes simplex virus
Herpes simplex infections: A review. (3):175–178

Human anti-murine antibodies (HAMA)
Detection of human anti-murine antibody in patients using a HAMA ELISA test. (1):54A

Human chorionic gonadotropin (HCG)
Evaluation of radial partition immunoassay for the quantitative determination of human chorionic gonadotropin. (1):57A
Assay for human chorionic gonadotropin using ligand and anti-ligand system. (1):58A

Human papilloma virus
Human papilloma virus: Role in cancer and prospects for diagnosis. (3):161–165
Detection of human papilloma virus. (3):166–167

Immunoglobulins
Determination of immunoglobulin A in saliva using an ELISA robotics system: sIgA recovery after immunosuppression. (1)53A

Infectious diseases
A fluorescence ELISA for Lyme disease: A comparison with other diagnostic techniques. (3):154–157
Enzyme immunoassay for the detection of Lyme Borreliosis. (3):158–160
Human papilloma virus: Role in cancer and prospects for diagnosis. (3):161–165
Detection of human papilloma virus. (3):166–167
Epstein-Barr virus and infectious mononucleosis: A review. (3):168–174
Herpes simplex infections: A review. (3):175–178

Infertility
Diagnosis of infertility: SPERMCHECK™—An immunoassay for the detection of anti-sperm antibodies. (1):58A

Low-level radioactive waste
Disposal of low-level radioactive waste: Still a hot issue. (1):40–50

Luteinizing hormone (LH)
The enigma of standardization for LH and FSH assays. (1):18–20
Assay for human luteinizing hormone using ligand and anti-ligand system. (1):58A
Comparison of three commercial LH and FSH diagnostic kits with regard to important diagnostic classification. (1):58A

Lyme disease
A rDNA probe for arthropod-borne borrelia sp. (1):53A
A fluorescence ELISA for Lyme disease: A comparison with other diagnostic techniques. (3):154–157
Enzyme immunoassay for the detection of Lyme Borreliosis. (3):158–160.

Parathyroid hormone (PTH)
Evaluation of the ALLEGRO two-site immunoradiometric assay (IRMA) of intact PTH. (1):57A

Progesterone receptors
Factors to address when a laboratory is establishing new ligand assay receptor assays. (1):59A

Radioimmunoassays
Radioimmunoassay for the cancer chemotherapy agent CI-937 in several biological matrices. (1):54A
A rapid and sensitive radioimmunoassay for the detection of serum CK-MB isoforms. (1):55A
Comparative evaluation of ^{125}I and ^{3}H-labeled RIAs for specific measurement of cyclosporine (CsA) in cardiac and renal transplantation. (1):55A

Sperm
Diagnosis of infertility: SPERMCHECK™—An immunoassay for the detection of anti-sperm antibodies. (1):58A

Troubleshooting immunoassays
The enigma of standardization for LH and FSH assays. (1):18–20
What's your QC quotient? (2):73–74
Case of the phantom cobalt and the hook revisited. (3):135–136
Thoughts on being an ancillary service. (4):187–188

Systemic lupus erythematosus
An ELISA for antibodies to vimentin in patients with systemic lupus erythematosus. (1):53A

Theophylline
Determination of theophylline by crystal growth technology. (1):53A

Thyroid function testing
Thyroid profiling for the 1990s: free T4 estimate of sensitive TSH measurement. (2):82–89
Nonthyroidal causes of abnormal thyroid function test data. (2):90–99
Thyroid dysfunction in the elderly. (2):100–105
Simultaneous free thyroxine and thyrotropin measurement as a strategy for thyroid function testing. (2):106–110

Thyroid stimulating hormone (TSH)
Analytical evaluation of the reference standard and standard curve data reduction methods for the NML™ Low End Sensitive (L.E.S.) TSH assay. (1):59A
Thyroid profiling for the 1990s: free T4 estimate of sensitive TSH measurement. (2):82–89
Simultaneous free thyroxine and thyrotropin measurement as a strategy for thyroid function testing. (2):106–110

Thyroxine, free
Thyroid profiling for the 1990s: free T4 estimate of sensitive TSH measurement. (2):82–89
Simultaneous free thyroxine and thyrotropin measurement as a strategy for thyroid function testing. (2):106–110
Clinical significance of a slightly increased thyrotropin concentration. (4):224–228

Vimentin
An ELISA for antibodies to vimentin in patients with systemic lupus erythematosus. (1):53A
An ELISA for antibodies to vimentin in patients with systemic lupus erythematosus. (2):111–114

Vitamin B_{12}
CEDIA™ B_{12}, a homogeneous enzyme-based ligand binding assay for serum vitamin B_{12}. (1):56A
